Overview of The Neanderthal Parallax Series

Background and Premise

The Neanderthal Parallax series presents a fascinating alternate universe where Neanderthals, rather than humans, have developed advanced civilizations. The series contrasts this world with our own, examining how different evolutionary pathways impact societal structures, culture, and technological development.

The story begins with the discovery of a portal between our Earth (referred to as Earth-Prime) and a parallel Neanderthal Earth (Earth-Alpha). This crossing sets the stage for exploring how two intelligent species, so closely related genetically, diverged dramatically in their societal evolution.

Book 1 Recap: "Far Seer"

The first book introduces key characters from both worlds, such as archaeologist and scientist Dr. Ponter Boddit from Earth-Alpha and physicist Dr. David McFadden from Earth-Prime. It explores the initial contact and cultural misunderstandings, setting the tone for the series' themes of empathy, science, and existential inquiry.
