Using the data, coaches could:

- Schedule upcoming meetings before the meeting age becomes too long.
- Adjust meeting formats (e.g., shifting to virtual if in-person meetings become unfeasible).

Example:

Suppose a coach notes that the last meeting was on October 1st, and the next scheduled meeting is planned for October 15th. The meeting age at planning time would be 14 days. If, due to unforeseen circumstances, the meeting is delayed, the coach can assess whether the team is staying engaged or needs additional touchpoints.

Challenges Faced and How the 2020 Planner Addressed Them

- Disrupted Schedules

With the pandemic, many teams faced canceled games and practice restrictions. The monthly planner allowed coaches to:

- Flexibly reschedule meetings.
- Track the increasing or decreasing meeting age to maintain team cohesion.

- Transitioning to Virtual Meetings

Not all coaches or players were familiar with online platforms. The planner included dedicated sections to note platform choices, technical issues, and virtual meeting schedules, complementing the meeting age tracking.

- Maintaining Motivation

Prolonged gaps could lead to decreased motivation. By monitoring meeting age, coaches could implement motivational strategies during meetings to keep players engaged.
